

Merrimack Saint-Gobain Community Advisory Council Meeting

Final Agenda

February 9, 2021

Objectives

- Advance our understanding of current projects
- Gain information about the processes of Saint-Gobain
- Ensure we have information needed to inform our stakeholders

About the Meeting

This session is being held to allow Saint-Gobain to communicate key information about work at the Merrimack, NH facility, as well as ongoing investigation activities. This will include updates on both progress and barriers. The meeting will be facilitated by Mark Smith of Leadership Strategies. Notes will be provided following the meeting.

Agenda

7:00

Opening

Mark Smith will introduce the agenda and objectives for the meeting. He will review the ground rules and best practices for virtual meetings.

7:10
